Course Specifications

Course number: 084308

Course length: 1.0 day(s)

Certification: MOS: Microsoft Office Access 2010 Exam 77–885

Course Description

Course Objective: You will create complex Access databases by structuring existing data, writing advanced queries, working with macros, and performing database maintenance.

Target Student: This course is for the individual whose job responsibilities include working with heavily related tables; creating advanced queries, forms, and reports; writing macros to automate common tasks; and performing general database maintenance.

Prerequisites: To ensure your success, knowledge of basic and intermediate features of Access tables, relationships, and queries, forms, and reports is recommended. The following Element K courses or equivalent knowledge is recommended:

- Microsoft® Office Access® 2010: Level 1 (Second Edition)
- Microsoft® Office Access® 2010: Level 2 (Second Edition)

Certification

This course is one of a series of Element K courseware titles that addresses Microsoft Office Specialist (MOS) certification skill sets. The MOS and certification program is for individuals who use Microsoft's business desktop software and who seek recognition for their expertise with specific Microsoft products.

Course Objectives

Upon successful completion of this course, students will be able to:

- Restructure data into appropriate tables to ensure data dependency and minimize redundancy.
- Write advanced queries to analyze and summarize data.
- Create macros.
- Customize reports by using various Access features.
- Maintain your database using Access tools.
